

Youth Video Contest (Grade 6-12)

Youth can **POSITIVELY influence and encourage** each other to stay mentally and physically strong to deal with the pressures of drugs/alcohol their community.

While the **majority of students don't abuse** drugs/alcohol in our community, almost every student is confronted with a choice about alcohol or drugs at some time during their school years. **What are some of the best techniques to communicate the ways to make positive choices with ourselves, our parents, and our fellow students?** The Influence the Choice Drug Prevention Alliance for Youth is sponsoring a video contest to inspire youth to **POSITIVELY influence** each other by producing 2 minutes PSA's on one of the following topics:

1) My Choice to be Healthy--What Inspires Me to Make Positive Choices

Young people have all kinds of ways that they choose to live healthy, drug-free lives which also promotes good mental health. In your video, show the way you or your friends stay drug free or "cope" with stress, being mentally healthy and why it's so important to your well-being. It could be a sport you are passionate about, your art, your music, how you meditate, positive friendships, strong family ties, etc.

2) What I Wish My Parents Knew--Youth Telling Adults How to Talk to Their Kids About Being Drug-Free

Today's youth are faced with many new challenges and many want their parents to understand what those challenges are. But sometimes parents don't know what these challenges are, what to say or how to say it. Parents want to know **WHAT WORKS** - what can they say? what can they do? what shouldn't they do? Show what positive healthy dialogues between parents and their youth could be especially when it comes to talking about staying drug free and promoting good mental health.

3) To My Younger Self--Telling Middle Schoolers What They Can Do to Stay Drug-Free

High school students are in a key position to help influence the choice of those younger students that look up to them and the choices they're making. Sometimes, younger students have a perception of what high schoolers do - especially around using drugs. In your video, motivate and inspire middle school students to live a drug-free life and show them why it's important.
